## **HUNTINGTON BANCSHARES ANNOUNCES COMPLETION OF ITS DISCRETIONARY EQUITY ISSUANCE PROGRAM**

COLUMBUS, Ohio – Huntington Bancshares Incorporated (NASDAQ: HBAN; [www.huntington.com](http://www.huntington.com)) today announced that it has successfully completed its Discretionary Equity Issuance Program announced April 21, 2009.

As a result of this program, 38.5 million shares of common stock worth \$120 million were issued. The average price per common share issued was \$3.12. The issuance of these shares, plus the 4.7 million common shares issued resulting from converting a portion of our Series A 8.50% Non-cumulative Perpetual Convertible Preferred stock late in the 2009 first quarter that settled April 2, 2009, significantly strengthen key capital ratios. Specifically, these actions added 28 basis points to Huntington’s tangible common equity ratio (4.65% at March 31, 2009) and 30 basis points to its Tier 1 Common risk-based capital ratio (5.75% at March 31, 2009).

“We are extremely pleased that we were able to complete this expanded program in such a short period of time,” said Stephen D. Steinour, chairman, president, and chief executive officer. “Given the very good demand we found for our common shares, we were able to increase the program by \$20 million. These results speak well regarding the market’s perception of the progress we are making in improving our financial performance in this challenging environment.”
